

## ES Major Overlap Comparison Form

### Instructions

1. Please list all of the courses you have taken or are planning on taking to fulfill the requirements for the environmental studies major. Please do the same for your other majors
2. Compare the two columns and highlight or mark the classes that are the same. Keep in mind that the Environmental Studies major only allows **15** credits of overlap, meaning the student must show **15** credits of course work in the ES major that is not used in the other major(s).
  - a. Courses taken in the ES major can be used toward general education and breadth requirements
