

Finishing WRM

At the end of your last semester in the WRM program you will need to get your committee to sign your warrant. This can be done one of two ways:

1. You can ask your committee to stop by Room 70 Science Hall to sign your warrant.
2. You can take your warrant around to your committee and have them sign your warrant.

If you do not get your committee to sign your warrant, your degree will not be granted

Please note that your warrant **will not** be sent to the Graduate School until you have completed your course work and all of your grades are satisfactory. If your committee chooses to wait until your final term is completed, that is fine since the warrant will not be sent to the Graduate School until your final grades have been received.
